HVC11/12	71.65		65.50		62.43	

This HVC reel is our own design reel. It is the No.1 seller in our range.

The most strength of this is the Super light design. This very cool cutting make this reel to be the most light reel in the market with the sealed drag system.

The drag system is protected by the drag cover in the center. No dust or sand can get into the drag. But for make the reel lighter and just right enough for usage. This drag is not 100% sealed. So a few water still can get into the drag. So if you use it in saltwater, after the usage, it is better to clean it for long time usage

Even though not 100% sealed. It is still definitely better than most of the reel that they call them to be waterproof. We are honest to the customers. So we call this reel to be Semi-waterproof

MC9/11	63.06		57.33		54.60	

The MC reel is a very classic reel. With a traditional design. The selling point is that it is very stable, It has been proved by the market for a long time. Not very cool out-looking. Not very new function. It is just good enough for you to catch the fish very smoothly. And very important is that it is very competitive in price for the high performance. So I call it to be the most cost effective reel in our range

The ML reel is designed to be a hit in the market for the price. I designed it to aim of the market of big chain stores and super market. Or all of the price-sensitive market.

This is a very simple reel. The drag is simple but with the enough function for most of the fish. For a professional fly fisher, this may not enough to handle all of the monster fish. But for a beginner or a friend who just want to have a try for fly fishing, this is definitely a decent reel to use. You can fish with it for one or two years. And then decide if to upgrade your tackle to fight for more experience, or just use this for a happy time in some water without monster

This NZ fly reel is designed to be the same price as our ML reel. They are targeting for the same price range, but with different style. The NZ reel is not designed to be large arbor. And not pursuit for the light weight. It gives you a very strong feeling. But of course not very heavy. When you get it in hand. You can feel that it can be used for a very long time. And not easy to get into trouble. The one-push button to release the spool is also very convenient for usage. The drag system is protected by a cover. So no rust or sand can get into it. Basically, this is the best reel in this price range that you can trust in

This SA clicker is designed follow the Sage clicker reel, I must show my respect to Sage, I also use sage reel. But according to the feedback of the customers, our SA clicker is as good as Sage reel now, I agree this This reel is very very light, of course, this is no drag system, only a clicker But if you just want to catch some small fish for fun in the water around your home. This will be a very good choice For me, when I go to fish some small fish no longer than my hand. I will take a 2 weight or 3 weight rod. And this reel will be sure be my choice to match. It will be very happy experience to let a fish take out the line from this reel

The DM reel is made by Machine cut and Die-casting combined technology

This makes the reel relatively competitive in price. And the truth is that by our continuously upgraded technology. We can make the reel as good as a machine cut reel. The only problem is that we can only make it in black color for a stable mass production

The DM reel is a best selling reel in our range in this price level. It has been proved in the market. Many brands choose it be a part of their combo for the starter. This is also my choice to be in our own combo

ALC9/11	US\$12.50		US\$11.89		US\$11.33	

The ALC reel is a very standard reel in the market

It is made by many different factories for the same or similar reel. The selling point for this reel is mostly on its price. Although it is made by die-casting. It is at least an aluminum fly reel. For a price in this level. We must say it is still very attractive. If you do not want to spent a lot of money on the reel. Or just want to get a spare reel. This is also a right choice. Although I do not fish with this reel myself. But when my friend told me that they want to try if they will like to play fly fishing. Then I will also be glad to give this reel to them. So after a while, they can decide if to invest to upgrade to better reels

This is our new classic fly reel developed in 2013 to meet the need of the market. Many clients has asked us to make a classic reel. Now, after collecting the advises from any customers, we finally worked out one that is fully developed by our self. For the size of 3/4 and 5/7, considering not a very strong drag power is needed. Because many of our anglers would rather to hold the fish with own hands. We decided to use a clicker drag system on this reel
